## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Samuel W. Nitros on 4/11/2007.

The application has been amended as follows:

- Claim 19 has been amended as following:

19. (Currently Amended) A switching method of an AAL2 switch for multicast, the method comprising:

converting a received AAL2 packet into a common part sublayer (CPS) packet by demultiplexing the received AAL2 packet;

storing the CPS packet according to a routing information, the routing information indicating a predetermined memory address allocated for storing the CPS packet;

converting the stored CPS packet into an AAL2 packet, wherein the stored CPS packet contains a field configured to indicate multicast transmission using a two or more of a plurality of output ports of the AAL2 switch; and

transmitting the AAL2 packet to a plurality of different destinations using said two or more output ports according to said field.

- Claim 20 has been amended as following:

20. (Currently Amended) The switching method of claim 19, wherein the routing information is generated based on a virtual path virtual channel (VPVC) and a channel identifier (CID) of the received AAL2 packet, and wherein a new VPVC is generated and stored based on the VPVC and the CID.

- Claim 23 has been amended as following:

23. (Currently Amended) The switching method of claim 22, wherein the converting the stored CPS packet into the AAL2 packet extracts the corresponding to an output port where the CPS packet is allocated by the periodically searching.

### **Reasons For Allowance**

2. Claims 1 – 6, 10 – 24 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

The prior art of record, in single or in combination, does not disclose the limitation of "a plurality of memories configured to store CPS packets, said at least one CPS packet stored in one of the memories at a predetermined address indicated by a routing tag allocated to said at least one CPS packet by a corresponding one of the receiver circuits; wherein said one memory stores information indicating that said at least one CPS packet is to be multicast through two or more transmitter circuits and wherein the two or more transmitter circuits search the memories to locate the multicast information and transmit the AAL2 packet based on the search results" as disclosed in claim 1;

Art Unit: 2616

"storing the CPS packet and the new VPVC according to the routing information, the routing information indicating one or more predetermined storage areas in a memory allocated for storing the CPS packet" as disclosed in claim 13; "storing the CPS packet according to a routing information, the routing information indicating a predetermined memory address allocated for storing the CPS packet" as disclosed in claim 19.

3. Additionally, all of the further limitations in claims 2 – 6, 10 – 12, 14 – 18, 20 – 24 are allowable since the claims are dependent upon the independent claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew C. Lee whose telephone number is (571) 272-3131. The examiner can normally be reached on Monday through Friday from 8:30am - 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wing Chan can be reached on (571) 272-7493. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
